EDUCATION

San Jose State University

San Jose, CA

MASTER OF SCIENCE IN SOFTWARE ENGINEERING

Aug. 2017 - Dec. 2019

• Coursework: Data Mining, Machine Learning, Deep Learning, Large Scale Analytics, Recommender Systems, Graph Mining, Big Data Engineering, Computer Vision, Natural Language Processing

University of California, San Diego

La Jolla, CA

BACHELOR OF SCIENCE IN ELECTRICAL ENGINEERING

Sept. 2012 - June 2016

· Coursework: Pattern Recognition & Machine Learning, Probabilistic Reasoning & Graphical Models

WORK EXPERIENCE_

HomeLight

San Francisco, CA

SENIOR DATA ENGINEER

July 2022 - Present

DATA ENGINEER• Built internal TV ad tracking, planning, & bid optimization system with multiple data sources to enable marketing team and **significantly**

- Built internal IV ad tracking, planning, & bid optimization system with multiple data sources to enable marketing team and significantly reduce agency ad costs by \$250,000 per year using Django, Airflow & SQL on AWS (ECS, S3, RedShift) and Heroku
- Contributed to design, implementation, and launch of new core algorithm to rank real estate agents and match them with leads (home buyer/seller) using **Django**, **ElasticSearch**, & **SQL** on **AWS** (Kinesis, S3, Redshift) and **Heroku**, **boosting lead conversion rate by 15%**
- Designed, built, and launched core data pipelines to ingest and process critical MLS data across the US to support property listing pages (property search, property history) using **Airflow**, **SQL**, **Kafka** and **ElasticSearch**
- Designed & developed new media system to improve processing of large batches of property images using Airflow and AWS (Lambda, SQS, S3, Redshift, DynamoDB, CloudWatch)

ViacomCBS San Francisco, CA

MACHINE LEARNING ENGINEER

Feb. 2020 - Nov. 2020

DATA SCIENCE INTERN

June 2019 - Dec. 2019

- Designed, implemented, and launched ML service to automatically generate intelligent video previews using Django, Docker, and Kubernetes / Helm on GCP (Stackdriver, GKE, Pub/Sub, GCS, Cloud SQL), Codefresh and Grafana to save company money from using external services and support internal brands (CBS News, CBS All Access)
- Built serverless ALS collaborative filtering recommendation system using **Spark**, **Redis**, **Kubernetes**, and **GCP** (**BigQuery**, **Dataproc**, **GKE**) to power personalized movie / show recommendations for **CBS All Access**

Knowles Intelligent Audio

Mountain View, CA

DATA ENGINEER

Feb. 2017 - May 2019

TEST ENGINEERING INTERN

Oct. 2016 - Feb. 2017

• Designed & implemented data pipelines for verification, processing, and transfer of large amounts of critical audio data into **MongoDB** database to enable cross-functional engineering teams and created **REST API** for CRUD operations on the database

PROJECTS

Yet Another URL Shortener

Tools: Golang, MongoDB, AWS, Docker

• Collaborated with team in hackathon to design & implement microservice architecture satisfying **AKF Scale Cube** with **React.js** frontend, **Kong** API Gateway, multiple load balancers, **Golang** API microservices, and **MongoDB** clusters hosted on **AWS**

Data Science Competitions

Tools: Python, SciPy, Pandas, NumPy, Seaborn, Scikit-learn, Surprise

• Ranked **1st** in book recommender system, **2nd** in traffic image classification, **3rd** in news article text clustering, and **5th** in medical text classification in the final leaderboard of data science competitions

Utopia Alexa Skill

Tools: Python, Alexa Skills Kit, Travis CI, Codecov, Zappa, AWS Lambda, Pytest

• Developed and deployed a serverless Alexa skill to help people with depression

SKILLS

Programming Python, Bash, Golang, JavaScript, MATLAB

Database PostgresSQL, RedShift, BigQuery, MySQL, SQLite, MongoDB, Redis

Frameworks Airflow, Django, Pandas, NumPy, PySpark, SciPy, Matplotlib, Scikit-learn, Selenium, Keras, Flask, TensorFlow, Pytest

Tools Git, Docker, ElasticSearch, Heroku, dbt, Kafka, Helm, Kubernetes, Argo, CI/CD, Spark, Grafana, Prometheus

Google Cloud Platform (Pub/Sub, GCS, Cloud SQL, Dataproc, BigQuery, Stackdriver, GKE, GCR, GCE, GAE, AutoML),

Amazon Web Services (SQS, EC2, S3, RedShift, ECS, Kinesis, Lambda, CloudWatch, Alexa Skills Kit, SageMaker)

JULY 14, 2022 KEVIN CHUANG · RESUME 1
